## **System Requirements For AutoCAD:**

This mod has been tested with UE4 version: 1.6.0f3 in compatibility mode. Any older or newer version of the mod may not work in your project. Despite being a stable project, this is still a rather big mod with a fair amount of content, which is why it's a while before we can promise 100% compatibility. That said, if you do come across an issue, please post it in the issues forum. For the most part, I will do my best to fix all issues
